Reducing Infant Mortality by Improving Women's Health: Preconception CoIIN

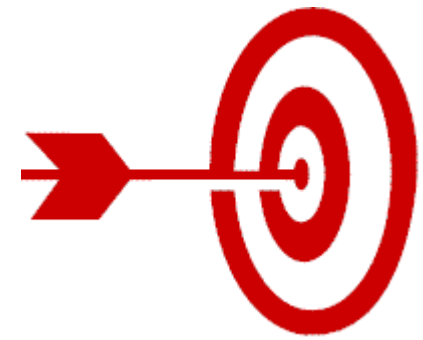

OUR GOAL

This Preconception CoIIN will develop, implement, and disseminate a woman-centered, clinician-engaged, community-involved approach to the well woman visit to improve the preconception health status of women of reproductive age, particularly low-income women and women of color.

Key Activities

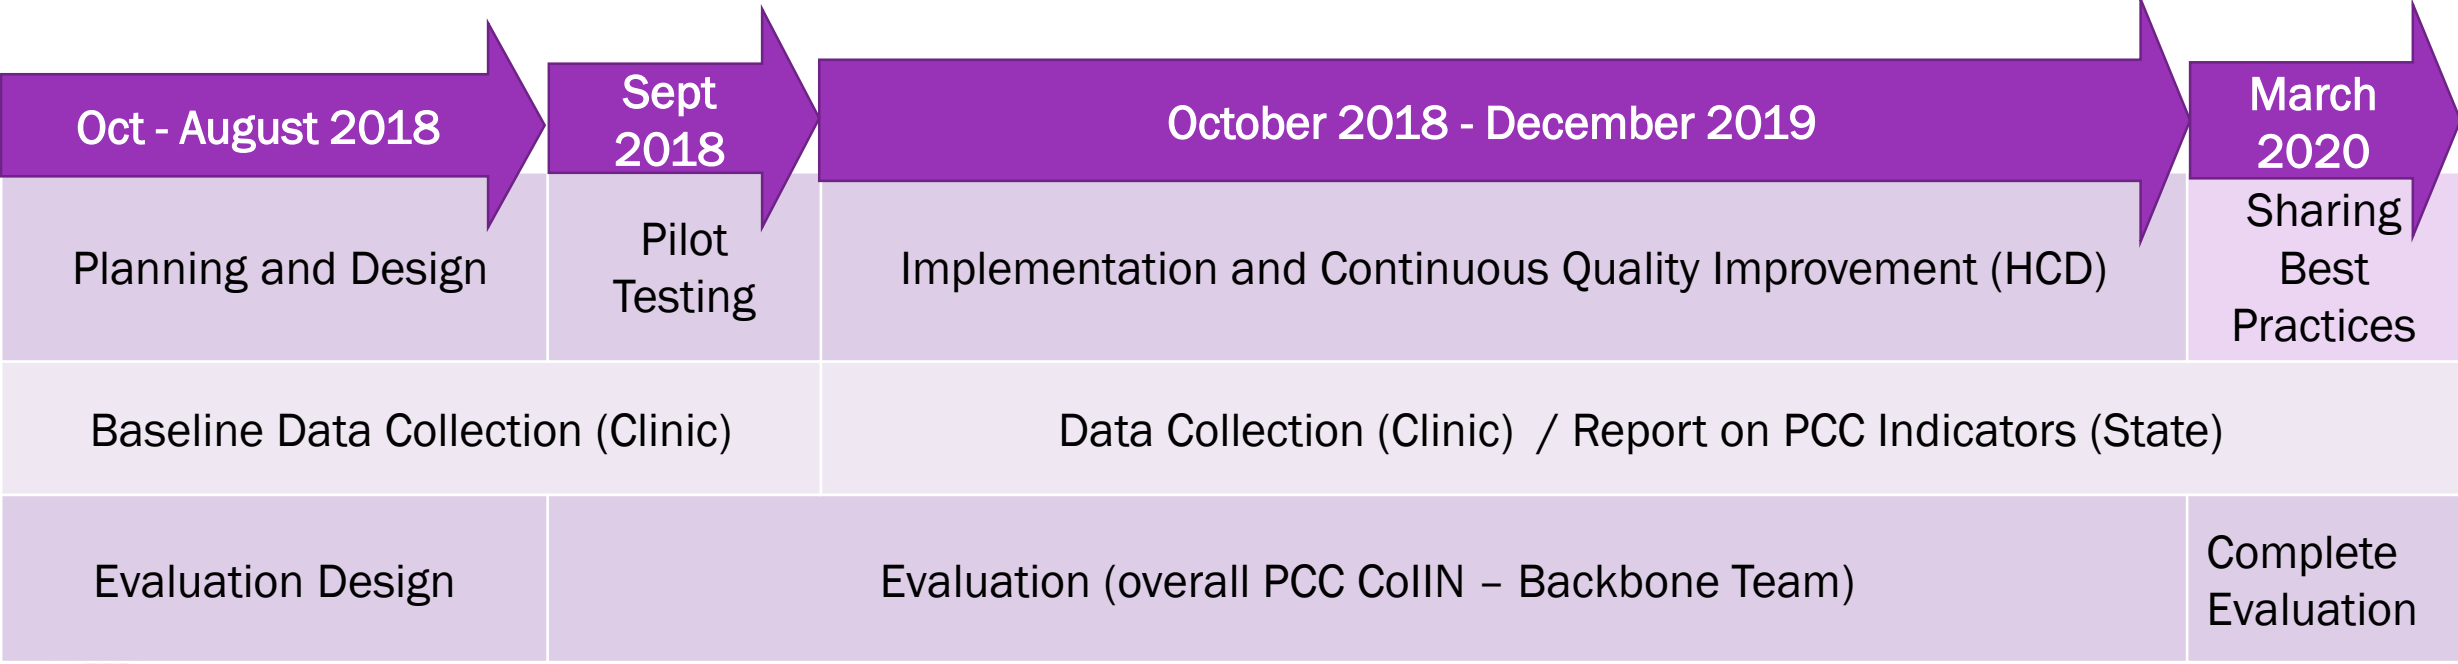

Year One
Activities

- Utilize a human-centered design approach to develop patient-centered preconception screening tools, based on evidence-based questions and interventions, and population needs
- Utilize a human-centered design approach to develop clinic-based strategies for assessing, documenting and responding to results of preconception risk screening
- Build state capacity for supporting preconception wellness by conducting a gap analysis to identify needed resources (educational materials, training, programs), policies, and supports to enhance clinic and community response to identified preconception risks

PCC CoIIN Timeline

Learning with Each Other

Anyone Can Speak up

Keep Comments Focused 😊

State Teams

- What has worked well?
- What has been challenging?
- Who is part of the team, and who is still missing?
 - How many clinics are you working with? What type of clinics?
 - What successes have you had in clinic recruitment? Challenges?
 - Are consumers and community members a part of your state team?

Clinic Sites

- What tool(s) are you using to learn about partner clinics?
 - Facility Assessment Tool? Other?
- What aspect of the preconception screening and referral process are you most interested in working on in your clinics setting?
- Do you feel that your clinic has all team members on board to participate? Are there additional resources that would be helpful?

Engaging Consumers and Community

- Who are your consumer and community partners?
- How are you applying human centered design strategies? If not using HCD, what is your approach?
- What has worked well? What is hard?
- What needs do you see?

Statewide Preconception Supports/Barriers?

- Are there any issues that have come up in terms of policies, resources or programs in your state that either support or inhibit preconception health wellness?
- How is your state team thinking about communications? What currently exists and who is the lead for these efforts?

CMIH Support

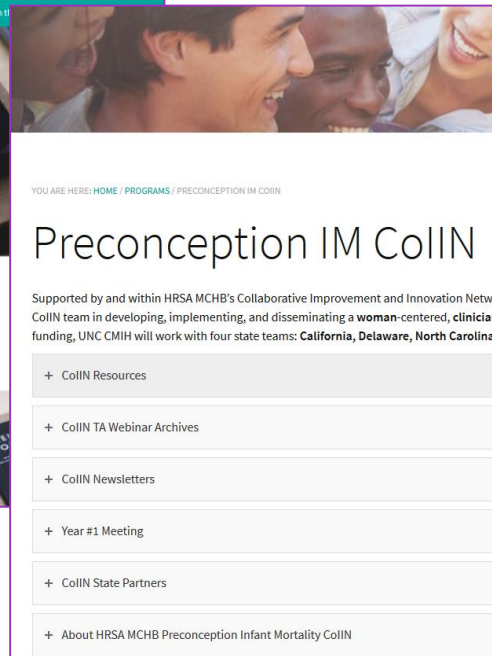

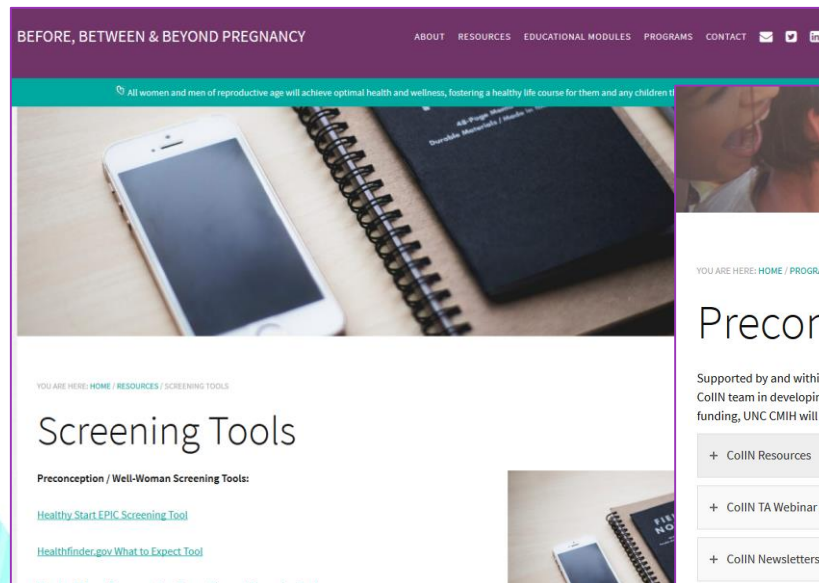

- Newsletter Feedback
 - Changes you'd like us to make?
- How helpful have the webinars been?
 - What other topics would you like covered?
- Have you used the BeforeandBeyond.org and ShowYourLoveToday.com websites?
 - If so, what is most helpful?

Resources

What additional TA/Support/Resources would be helpful for you and your team?
Please respond to the poll and chat in feedback.

We have numerous resources available on beforeandbeyond.org. This includes presentation slides/recordings, sample surveys, HCD tools, webinar series, and more.

Overall

- What excited you about joining this project?
- What is the most interesting thing you have learned so far?
- What challenges do you anticipate moving forward?
- Have you thought about how to measure the success / health of your state team and partnerships?

About This Project

This project is supported by the Health Resources and Services Administration (HRSA) of the U.S. Department of Health and Human Services (HHS) under grant number UF3MC31239-Providing Support For The Collaborative Improvement and Innovation Network (CoIIN) To Reduce Infant Mortality. The grant amount totals \$1,494,993. This information or content and conclusions are those of the author and should not be construed as the official position or policy of, nor should any endorsements be inferred by HRSA, HHS or the U.S. Government.

Search "PCHHC"

Poll 1: Who is on the call

- What is your primary role as a member of your state team?
 - State Title V
 - State Public Health
 - State Partner
 - Data Lead
 - Healthy Start
 - Consumer
 - Community representative
 - Clinician
 - Clinic Partner
 - CMIH Team
 - Preconception CoIIN Consultant
 - HRSA
 - Other

Poll 2: Newsletter

- Which best describes how you read the newsletters?
 - All of the content every month
 - Skim monthly
 - I have read a couple
 - I haven't read any... but I know that they are there
 - There is a newsletter?

Poll 3: Newsletter

- Do you think that the content in the newsletter is:
 - Too much
 - Too little
 - A good amount, but would like different topics
 - It's great - don't change anything!
 - I don't know – I haven't had time to read it

Poll 4: Webinars

- I have listened to:
 - Preconception CoIN Webinars
 - PCHHC-wide Webinars
 - DATA Contractor (Abt Associates) Webinars
 - Webinars – can't keep track of who runs which
 - None – plan to listen to the archives at some point
 - None

Poll 5: TA Resources

- What technical assistance, resources, or support would be most helpful to you moving forward?
 - Project Planning
 - Process Mapping
 - System Mapping
 - Gap Analysis
 - Human Centered Design
 - PDSA Cycles
 - Metrics Selection
 - Data Collection
 - Communications
 - Social Media
 - In-person support
 - Other
